About me

I'm Evgenia, a UX/UI designer passionate about photography, visual organization, research and a bit of frontend.

I am well-organized with excellent attention to detail and a collaborative mindset. I enjoy putting together beautiful user-centered designs and am always curious about how I can improve, enhance my creative abilities and problem-solving skills.

Education

Multimedia design - Business Academy Aarhus

2022 - Present

My focus in the program has been on UX/UI design, creating compelling visual experiences as well as understanding frontend development. I have become familiar with the design process and principles from the research and business side to the execution of a digital product.

- Collaborating with clients due to the project-oriented curriculum
- Effectively communicating and presenting ideas digitally
- User-oriented design, focus on UI and work with software

Graphic design class -Emiliyan Stanev Secondary School

2017 - 2022

During my education, we had a lot of extracurricular events, that led to developing soft skills like empathy, decision-making, teamwork and contributed to my curiosity and drive to experiment.

- Organizational and teamwork skills
- Public speaking skills
- Creative writing skills

Work Experience

Cleaning Assistant - Bioclean | Arla foods

2022 - Present

Key responsibilities:

- Taking care of cleanliness and putting in order office and kitchen areas
- Training new employees

Competencies achieved:

- Efficiency in regard to time management and organizational skills
- Collaborating on split shifts and communicating effectively potential problems
- Training skills

Freelance - Photography

2020 - Present

ERASMUS +

Youth Finance Academy, Bucharest

2022

As part of this project, I gained an insight of how to structure and keep track of my finances through teambuilding and strategy games

"Art is everywhere" project, Izmir

2021

Voluntary work

Charitable bazar

2021

Being one of the organizers of a charitable event for my teacher taught me how to lead a team into effectively organising events while complying with time and budget restrictions
